

REVOLUTIONARY LASER TECHNOLOGY

EMISSION SERIES. Do It Right The First Time. It's Not Late!

SIEMENS

Date: 9 Feb 2007

Time: 2pm-5pm

**Venue: Chemical Process Technology Centre
(Jurong Island)**

81 Jurong Island Highway, S 627837

Refreshments Provided. Exclusive Invitation.

Keynote Speaker

Jameson Chang
Managing Director
Procems Asia Pacific
(Singapore)

Foreign Speaker

David Janssens
Product Manager
Siemens
(Germany)

GET INSIGHT TO LATEST TECHNOLOGY

Contents

1. Breakthrough in Emission Laser Technology
2. No More Relying on Calibration
3. No Cross Interference, Contactless Measurement
4. Cost Effective Model for Process Industries
5. Savings for Stack Emission Monitoring

Free Seminar. Limited Seats. Register Immediately

Organiser: Procems Asia Pacific

Procems stands for process continuous emission monitoring specialist. It provides a comprehensive one-stop solution in stack emission monitoring of flue gas of industries. An EDB linked company, it is expanding the technologies through its partnership with European counterparts. Providing customised solutions, it has various cost saving models to meet the needs of each customer.
